

Argentine Tango

Friday Progressive Lesson Series

Every Friday - May 2014
7:30 - 8:30

Linda Scott, Instructor

Argentine tango is danced in an embrace that can vary from very open, in which leader and follower connect at arms length, to very closed, in which the connection is chest-to-chest, or anywhere in between. Your choice. Tango dance is essentially walking with a partner to the music. It will help your lead and follow more than any other dance.

This Friday series is for beginners as well as intermediate to advanced dancers who already know basic Tango. Every Friday the previous lesson will be reviewed giving us lots of repetition.
