Linda Scott

Argentine tango is danced in an embrace that can vary from very open, in which leader and follower connect at arms length, to very closed, in which the connection is chest-to-chest, or anywhere in between. Tango dance is essentially walking with a partner to the music.

This workshop is for intermediate to advanced dancers who already know basic Tango. Of all the dances, learning Argentine Tango will improve your lead follow skills the most.

Linda has a special passion for Argentine Tango because it is so dramatic and beautiful.
